Dear Sisui,

Hope this email finds you well and greetings from HTX (Home Team Science & Technology Agency)!

Thank you for your interest to join HTX. As the next step of your application, we would like to invite you to complete the attached technical test for the panel's review.

Please complete the attached assessment and email the required deliverables **within 5 calendar days** upon receiving this email.

Instructions

1. Create a public repository for submission of deliverables. Please provide all code, output, and answers in a single Python notebook. Proper code documentation, appropriate markdown formatting for written answers, and accompanying visualisations are expected. Ensure your explanations are clear and accessible to both technical and non-technical audiences.
2. Please complete the tasks and email the repository link by replying to all in this email **by 28 February 2026**.
3. Reach out to us if you have any queries via email.
4. All submitted artifacts must be executable without errors. If a specific environment setup is required, please include the setup scripts in the submission. Failure to comply will result in the submission being considered incomplete.

Our panel will be reviewing the submission, and we will be inviting you to an on-site interview with the team if you have been found to be suitable.

Please do not share this technical test with anyone else.

Appreciate it if you could acknowledge receipt of this email.

Thank you.

Regards,

Natasha LEE
